*Some prices may not be available at all times.*

\* with main colour, \*\* with cut and/or finish, \*\*\* Additional charge possible for extra hair (long/thick) ask your stylist if you have any concerns, **Please Note: Most of our clients will want a cut and/or finish after their colour service, our colour services are priced to take this into account. Therefore we do not include the finish in our colour prices because this would double charge the majority of clients.** Please add at least a blowdry to your colour service. Specialist services such as Brazilian blowdrys, IHR Straightening and hair extensions **do** include a finish within the service. Please ask if you need clarification. **Services Explained**

->**Highlights Full Head** - All over highlights using foils and our state of the art Wella Hair Colour technology. A full Head of highlights will give you an amazing natural dimensional look. We'll also (unlike other salons) use more than one colour to achieve this look to give you a real three dimensional natural look. You'll absolutely love it. ->**Highlights Half Head** - Half the amount of foils used for a full head of highlights. This will still give you the dimensional look and again we'll use tones to blend your highlights. ->**Highlights T-bar** - Also known as a ¼ head where the central parting and front fringe colour is refreshed and highlighted (imagine a T shape when seen from above). This is great if your roots are starting to show or you just want to refresh your look - everyone will think you just had another full head when really you just refreshed your look. ->**Flying Colours** - Freehand colour that is painted onto random pieces of hair suitable for shorter hair styles. This may also be known as a shoe shine and will normally last until the next cut. Again a great way to try out colour to see if it's for you. ->**Tint** - An all over permanent colour that lasts between 6-10 weeks. ->**Re-growth** - Colouring of roots after having a permanent tint to refresh the look. ->**Semi-Tint** - a semi permanent tint which will wash out after 8-10 washes - if you're scared of colour try this to see if you like it. ->**Toner / Colour Balancing** - sometimes the hair colours can need a little finness to blend naturally into your look - toner / colour balancing is our magic in these cases. ->**Bleach** - if you want very light coloured hair we can bleach your hair. ->**Colour Correction / Change** - changing colours or correcting a previous salon's colours (or home colour attempt) can be time consuming and requires a great deal of skill. Results cannot be guaranteed because we won't always know exactly what has been used before. That said we can normally fix hair disasters. ->**Ionic Hair Straightening** - A permanent hair straightening treatment that only needs to be done once to last for 5-8 months with ultimate results. ->**Brazilian Straightening / Blowdry** - a non-permanent straightening process which will last for 2-4 months. ->**Hair Extensions** - Human and synthetic hair Extensions available. ->**Cutting Re-design** - if you want a new look you'll need to discuss your needs with your stylist, go through hairstyle guides and work out what works best for you - this is a re-design It takes longer than a normal cut because of the consultation needed.

**Stylist Levels Explained.** ->**Graduate Stylist** - a stylist who has recently qualified (1-2 years experience) and is very keen to impress. They are fully trained on our technologies such as Colouring and Straightening and a more senior team member is always on hand to assist if needed. Graduates will take longer than a more experienced stylist and if what you have in mind is technically challenging either in terms of cut or colour a more experienced stylist is recommended. For everyday colours or cuts however they are more than capable. ->**Stylist** - an experienced stylist with who's developing and deepening their skills. Typically this hair stylist will have been working as a stylist for two years in other salons before coming to us. ->**Senior Stylist** - Typically our senior stylists will have been working for 6-8 years before they'll be accepted as a Senior Stylist. They will have gained valuable experience and their client return rates proves this. ->**Style Consultant** - Has extended education, experience and confidence in their ability which can only come with years of experience. This is hair magic.
